Security Awareness Training

92% of all Data Breaches are Caused by Human Error

Utilize our innovative cybersecurity training methods, dark web monitoring, phishing simulations, and yearly NIST security audits to build your employees from the weakest link to the strongest defense.

Innovative Cybersecurity Solutions

Our Employee Security Awareness Training specializes in educating your employees on the intricacies of protecting your business from cyber threats. Create awareness and educate your employees on threats such as spam, phishing, malware, ransomware, social engineering and more to ensure your employees and company data are secure.

Our fully-automated platform includes everything required to protect your employees from sophisticated cyber attacks. Utilize innovative cybersecurity training methods, dark web monitoring, phishing simulations, EVA assessments, and yearly NIST security audits to build your employees from the weakest link into your strongest defense in your cybersecurity playbook.

CONTINUOUS EDUCATION

Weekly 2-minute microtraining video & short quiz combined with a monthly security newsletter keep cybersecurity short, engaging, and interactive.

AUTO PHISHING

Unlimited and Automated. Routine simulated phishing has been proven to minimize the risk of end-users falling victim to a malicious phishing attempt.

DARK WEB MONITORING

We proactively monitor the dark web for compromised account data. The sooner end-users are notified of a breach, the sooner they can change their passwords.

YEARLY SECURITY AUDIT

We identify the human vulnerabilities and their related risks. Based on NIST standards, our Security Risk Assessment (SRA) is a yearly free audit of your organization.

WRITTEN SECURITY POLICIES

Security policies and employee acknowledgement are key to establishing expectations and explaining repercussions to protect your organization.

EMPLOYEE VULNERABILITY ASSESSMENT

EVA, our Employee Vulnerability Assessment, takes key security metrics and adds engagement with an interactive leaderboard and friendly competition!
