

In this guide, we'll show you everything you need to know about using the features of the TrustUC with Webex application and walk you through set up and first-time login for Webex, Business Messaging and Security Awareness Training.

The TrustUC with Webex app empowers you to be productive wherever you prefer to work. It fuses together your phone system calling with vital team collaboration and meetings.

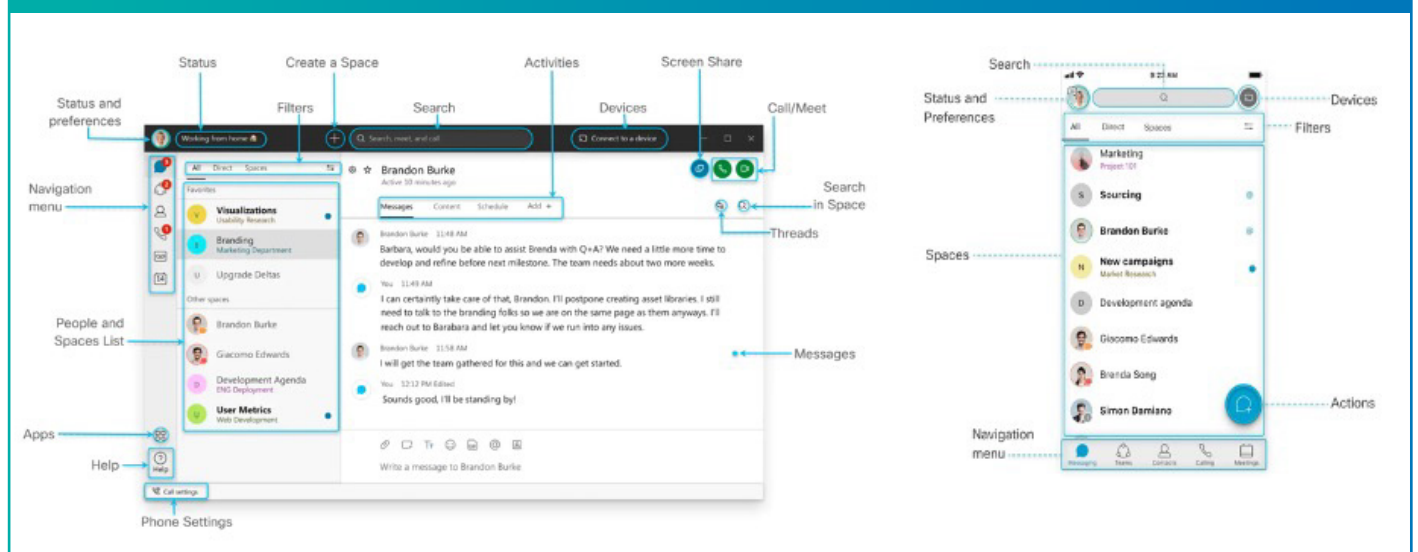

You can gain a deeper understanding of the Webex features by selecting the Help icon at the bottom right of the desktop application or bottom of your spaces list in mobile client.

Additional User Guides can be found on the TrustUC section of our Resource page here:

Getting Started: Get to know TrustUC

DESKTOP AND MOBILE INTERFACES

First Time Logging In?

Be sure to activate your account using these instructions:

Note: If your work email address is already associated with a Webex account, you will need to login at <https://settings.webex.com>, click on the ellipsis (3 dots) on the top-right of the identity card, then click "Delete account>Ok". For further issues, please contact [Webex Support](#).

1. Gather your Webex Credentials

The first time you log in, your username will be your email address (all lower-case). Your password will be the same password you use for the Call Management Portal. If you do not have this password, use this link to reset your password: [LINK](#)

NOTE: Your password for Webex is always the same as your password for the Call Management Portal, resetting one will reset the other.

2. Download the Application

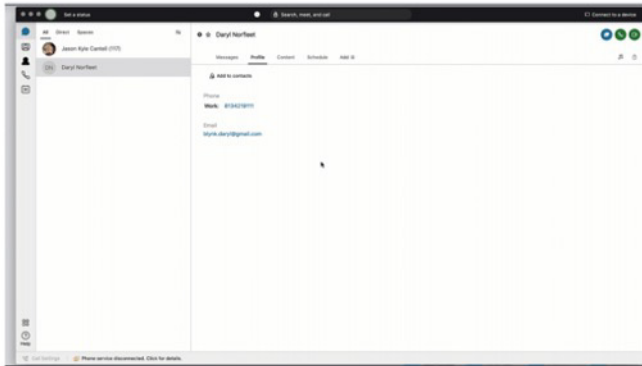

You're ready to get started. Follow the link to download the Webex application for mobile and desktop devices. [Download Application](#)

3. Log In

To log in, enter your email address (all lower-case) for the username into the application. Click **Next** and enter your password.

4. Collaborate

Take a peek at the need-to-know tips below or start using the intuitive app immediately. If you need additional help, please feel free to reach out to our support team at support@trusttelesystem.com or through our online contact page.

Add a profile picture

A clear picture of you makes it easier for others to reach out to you.

Step 1

Click on your initials on the top left corner.

Step 2

Click on your initials in the window that opens.

Step 3

Select a picture.

Step 4

Change the email address to your name, just under the profile picture.

Notifications

Set your notifications to stay up-to-date.

Step 1

Click on Notifications.

Step 2

Select the notifications for your spaces, scheduled meetings, and calls.

Step 3

Select your notification sounds.

Step 4

Click Save.

To manage notifications, your camera, and audio settings, click on your profile picture and select **Settings**.

Check your camera

Select which camera you want to use in calls and meetings if you have more than one connected to your computer (in-built, external).

Step 1

Click Video.

Step 2

Select your webcam from the drop-down list.

Step 3

Click Save.

Test your audio

Make sure it's working properly and that you hear the audio notifications at all times.

Step 1

Click Audio.

Step 2

Select which device will be used for the microphone, speaker and ringer.

Step 3

Click Save.

Create teams and spaces to manage all your communication and collaboration needs

TEAM

A team is a group of people who are connecting for a longer-term community, a larger project or business objective.

Each team has a space called **General** that everyone belongs to. You can add any number of

additional spaces to the team to divide up projects or priorities within the team.

SPACE

A space is a group of people who have been invited to work together. Spaces typically have names that describe what they're for or are named after the people in them if they're one-on-one.

A space can either be standalone or associated with a team. They can grow or shrink as needed.

Create a team

In Webex, teams help you keep everything organized by categorizing multiple Spaces under a common theme.

Step 1

Go to **Teams**.

Step 2

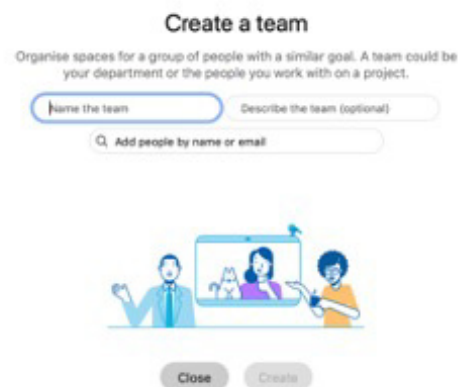

Choose the **Plus** icon, name the team, and click **Create**.

Step 3

Use the search bar to add team members. Enter a name or email address and pick from the results list. People get added to the General space automatically, but then can join any team spaces on their own.

Step 4

Click **Create**. To create more spaces for the team, click **Create a space** and add the space name.

Create a space

In Webex, you can interact 1-1 or you can collaborate with a group of people using spaces.

Step 1

Click the **+** sign next to the Search field.

Step 2

Click **Create a space**.

Step 3

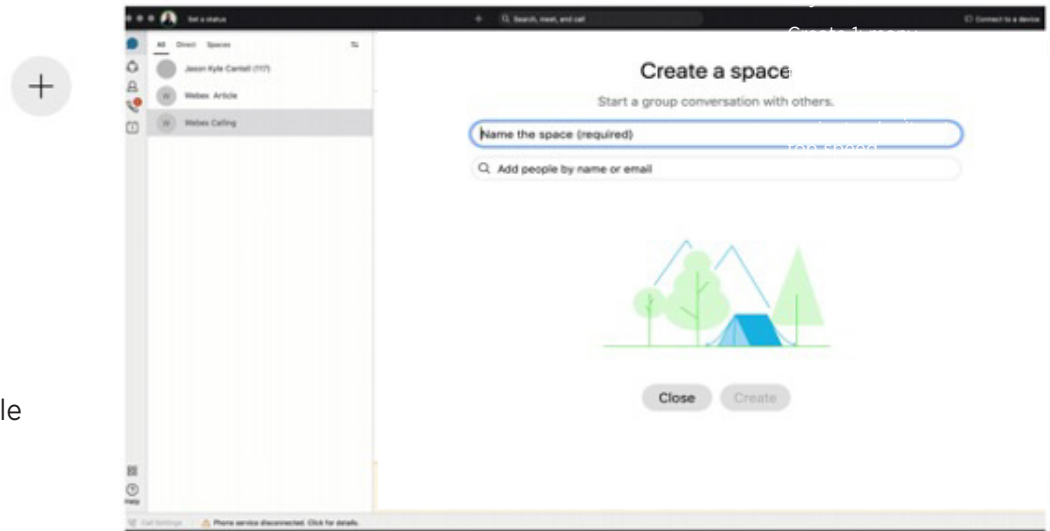

Type a name for your space.

Step 4

Enter the names of people you want to invite.

Step 5

Click **Create**.

Tip

Create a 1:1 space with a co-worker or client to have conversations, meetings, and share files anytime. Create 1: many spaces to share files, chat and meet with your teams to keep project velocity at top speed.

Making things happen with messaging and search

Powerful messaging

@mention

To grab someone's attention @mention their name. They will see @ against the Space, showing that their name has been tagged.

Edit messages

Made a typo? Not a problem, simply hover over your message and click Edit message. Then, make your changes and click update. After you update the message, you'll see (Edited) next to it in the space.

Send someone a message

You can easily contact internal or external people using the chat panel for 1:1 interactions or group communications in spaces.

Type the name of the person or space in the Search field. Click the person or space name. Type your message and press the enter key.

React to messages

Want to add a quick reaction to a message? Hover over the message you'd like to react to and click the Add reaction icon.

Give your message some personality

You can customize your message by formatting the text, inserting emojis and gifs, or adding attachments and screen captures.

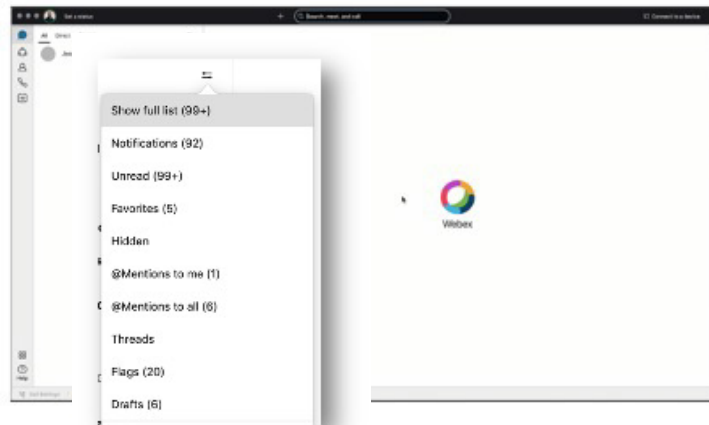

Answer a specific message in a thread

Slide your mouse above the message and use the arrow option.

Sort messages

To help zoom in on priority items and avoid information overload, simply click the Filter icon and select:

Flags: Shows a list of all messages you've flagged.

Drafts: Shows a list of your drafted messages.

Notifications: Shows a list of all spaces where you have notifications selected and something new happened.

Unread: Shows all unread messages.

Favorites: Shows a list of all spaces you marked as favorites.

Hidden: Shows all of your hidden spaces. Hidden spaces no longer show in your spaces list.

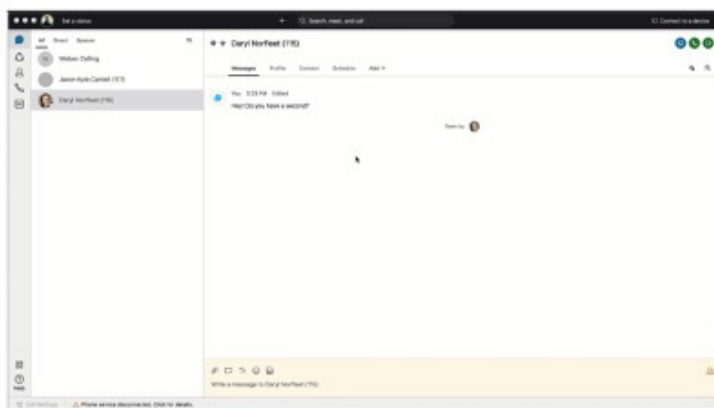

@mentions to me: Shows a list of all messages you have personally been @mentioned in.

@mentions to all: Shows a list of all messages where everyone was @mentioned in spaces you are a member of.

Threads: Shows a list of threads within chats and spaces.

Search messages, files, and people

Thanks to the advanced search feature, you can easily rediscover people, spaces, messages, and files.

Search for people or spaces

Start typing the person or space name into the **Search** field.

Search for content in a chat or space

If you are looking for a chat message or file, click the **Search** icon within the chat or space. Then enter the keywords or document name in the search field.

Tip

If needed, refine your search by first typing one of the following:

- **In:** Enter the name of the space and choose a space from the list.

- **From:** Enter the person's name and select the person from the list.
- **With:** Enter the person's name and select the person from the list. The results include spaces you are in with this person.

Getting work done with calling and scheduling

Starting and answering calls

Start a call

You can start video and audio calls with individuals from 1:1 spaces.

Step 1

Click the Search field.

Step 2

Start typing the name of the person or space you want to call.

Step 3

Click the name of the person or space in the results list.

Step 4

Click the Audio Call or Video Call icon at the top right of the space.

Answer a call

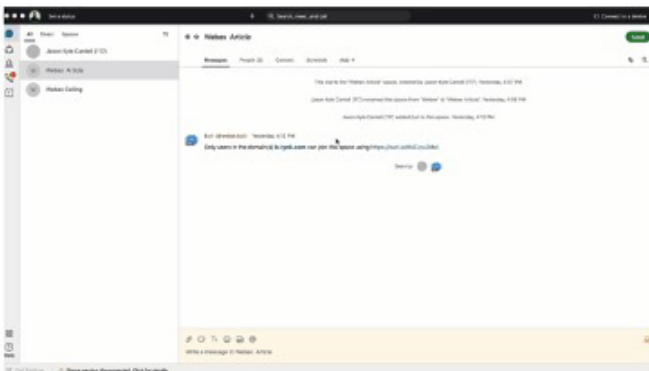

When you receive a call, you'll see a notification allowing you to:

- Answer: To take the call.
- Decline: If you can't answer now.
- Message: If you want to answer with a chat message instead.

Starting meetings in a space

You can start a meeting directly from a space. Need to escalate from messaging to a meeting? You can also initiate an ad-hoc meeting just by clicking Meet in your space.

All team members that have “Smart Notifications” set up will get a ping that their team is meeting!

And the green meet button will appear next to the space.

They only need to click to join in!

Tip

Any member of the space can start the meeting

Invite someone from within a call

When a call is running in a space, you may wish to invite someone as a guest but not add them to the space. To do this when on the call:

Step 1

Click the "... " icon in the meeting window.

Step 2

Click **Invite guests to meeting**.

Step 3

Type the name of the person you want to invite or their email address.

Co-create with whiteboarding and screen sharing

Whiteboards are powerful and simple tools to convey visual ideas and brainstorm on projects. Within Webex you can share whiteboards both during and outside a meeting.

Within a meeting

Step 1

Click the "... " icon in the meeting window.

Step 2

Click **New whiteboard**.

Step 3

Use the annotation tool to draw on the whiteboard. You can also continue an existing whiteboard previously shared in the space.

Outside a meeting

Step 1

Click the space where you want to share the whiteboard.

Step 2

Click the **Content** tab.

Step 3

Click **Whiteboards**.

Step 4

Click **New whiteboard**. Alternatively, you could reopen a whiteboard already shared in that space.

Step 5

Use the annotation tools to draw on the whiteboard.

Step 6

Click the **Share** icon.

Step 7

Click **Post snapshot** for your whiteboard to appear in the chat thread.

Share screen

In Webex you can share your screen with others, including streaming videos. Share your screen during a meeting or even in 1:1 spaces outside of a call.

Step 1

Click the **Share screen** icon.

Step 2

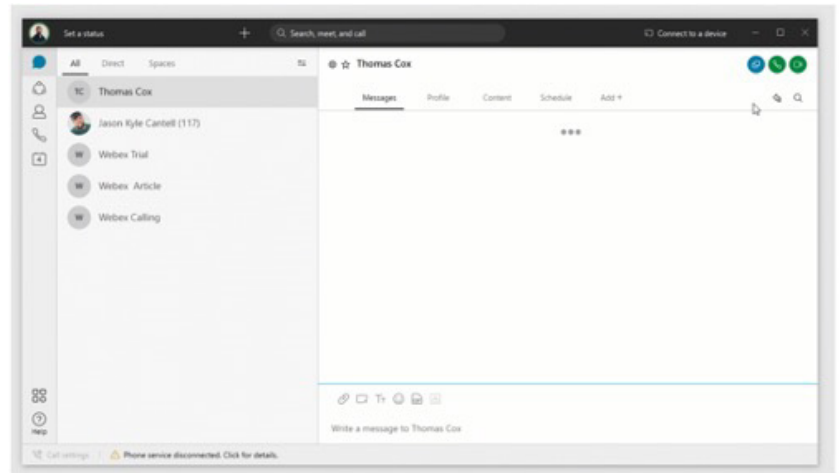

If you are planning to share a video, check **Share computer audio** and **Optimize for video** on top of the screen.

Step 3

Select the screen you want to show.

Step 4

To stop, click **Stop** in the orange bar at the top.

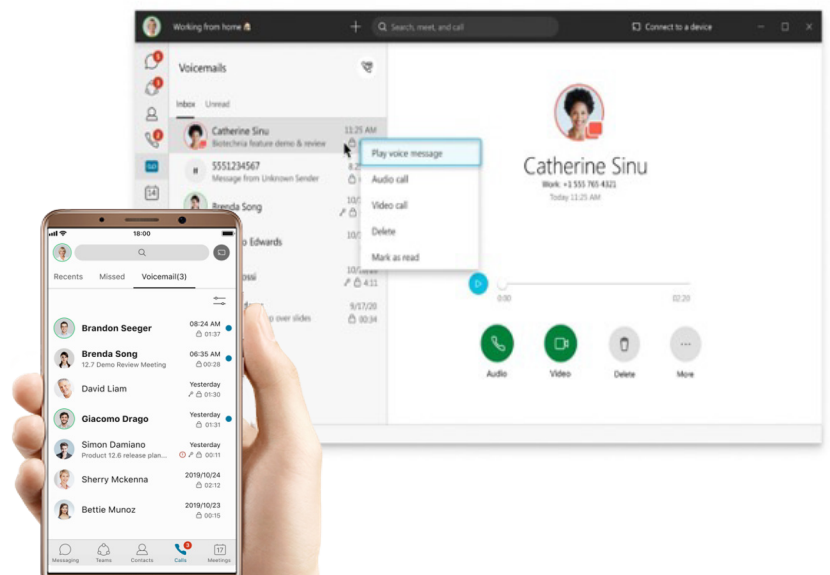

Be a Webex master: Tips & Tricks

Check your voicemail

If you have voicemail associated with your line, your app will notify you of new messages.

When you have an unheard voice message waiting for you, you'll see a red badge counter in your Calls section.

After you listen to your messages (from the app or your desk phone), the badge counter disappears. You can also call into your voicemail number to set up greetings, send voice messages, and more.

Spaces Tips and Tricks

Add an external participant to a space

You are not limited to communicating with only your organization. Invite external contacts like vendors or customers to collaborate with you in spaces using their email. You can keep track of what spaces have external contacts by the icon in the lower right corner.

Add a space to your favorites list

You can be more engaged in some spaces than in others. To keep a closer eye on those spaces that truly matter, you can add them to your favorites list by clicking the star in front of the space name.

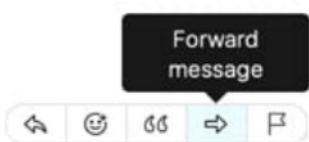

Add integrations to your space

You can see directly in the Webex space if someone added something new in your CRM, or updated specific documents in Dropbox. To get all the information you need in one place, explore the available integrations in the Apps section. Can't find what you need? Jump to developer.webex.com to build your own.

Forward messages

Sometimes you see a message in one space and want to share it with people in another. You might be chatting directly with someone, but something comes up in that conversation that you'd like to discuss with others.

Check people status

Knowing if people are available is important when you need to communicate with them. With Webex, just use the **Search** field to find someone and hover over their picture to get more information.

Picture appearance	Status
	Green border—Active in the last 10 minutes.
	No border—Active in the last 24 hours.
	Translucent profile picture—Not active for more than 24 hours
	Airplane—The out of office reply is set in Microsoft Outlook
	Moon—Do not disturb.
	Video—In a meeting or on a call. Can't be seen when using the mobile app.
	Sharing—Sharing a screen or application. Can't be seen when using the mobile app.

Turn on announcement mode

What if you need to dispatch information to an audience without a long thread of reactions? Switch on **Announcement** mode so only the moderators can post in the space.

Step 1

Click the **Space Information** icon in front of the space name.

Step 2

Click Moderate space.

Step 3

Click Moderate.

Step 4

Click the **Space Information** icon in front of the space name.

Step 5

Click Turn on announcement mode.

Step 6

Click OK.

Bots

Webex makes it possible to bring content into Teams and Spaces from any other application. Access business information and alerts from other systems. Avoid switching in and out of different apps to get information. It's also possible to create bots to automate repetitive, high-volume business processes, that no one enjoys doing.

Bots

A bot is a simple way for users to use natural language to request automated tasks to be completed on another platform.

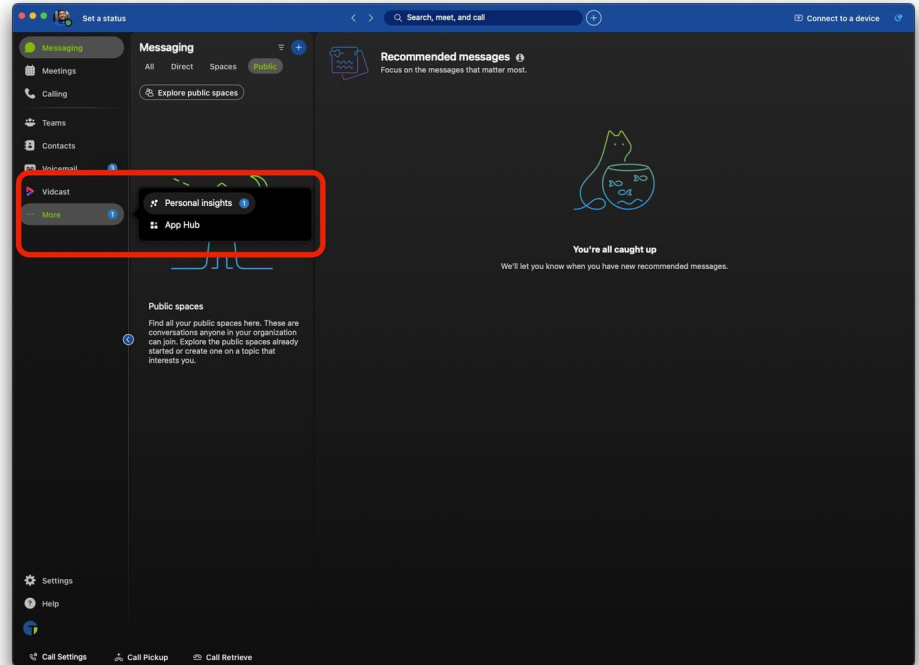

In Webex, a bot is a member of a Space just like any other real person. The possibilities of bots are endless. They can be as simple as getting weather updates where you live, or as complex as booking a meeting room or a flight.

Getting Started with Business Messaging

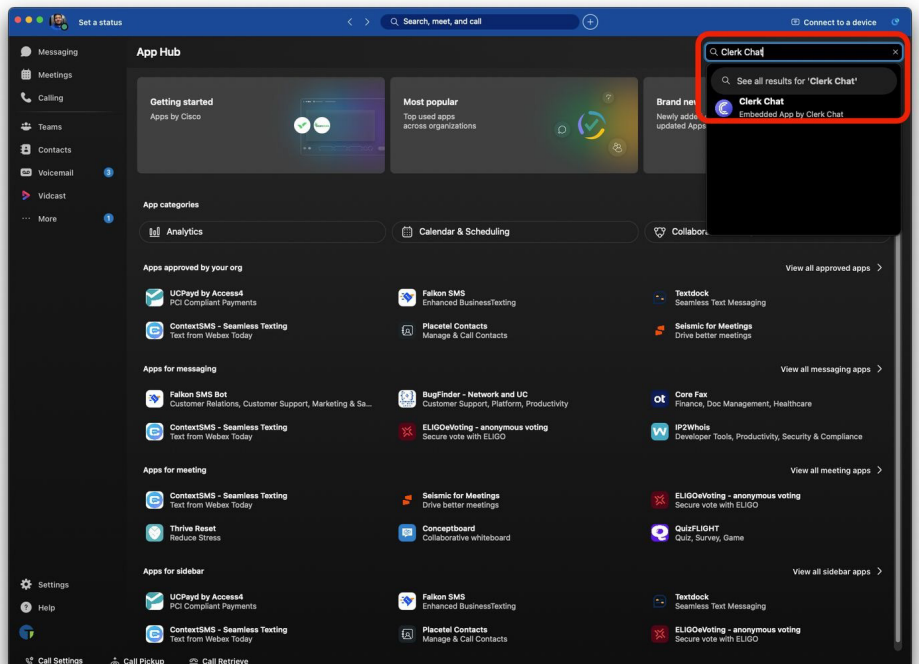

Webex Desktop Client Add-On

In the Webex desktop client, users can add Business Messaging to their sidebar for quick access. This allows you to sign in and manage your messages directly within Webex, ensuring seamless communication without switching between applications.

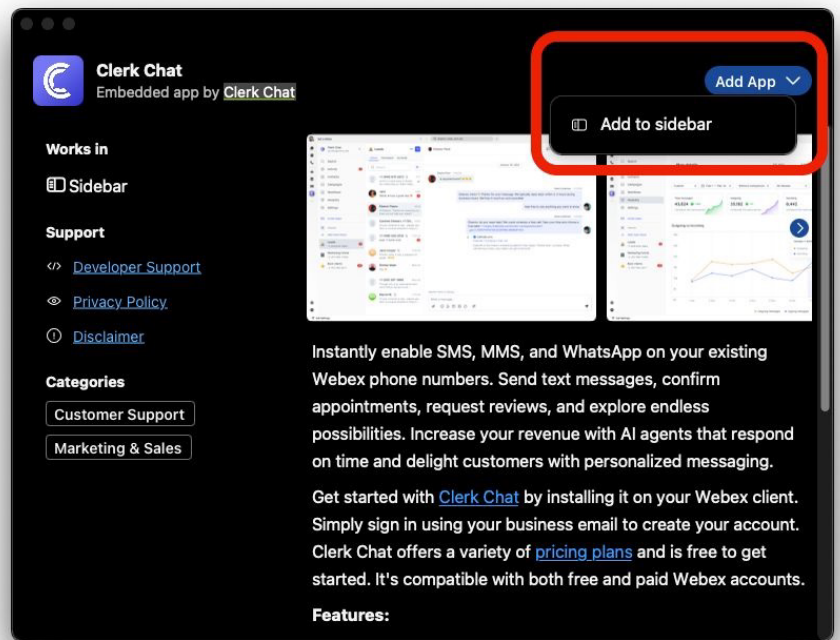

Step 1: In the Webex desktop client, use the sidebar to open the App Hub. You may need to click on the menu icon that shows 3-horizontal dots which is labeled More.

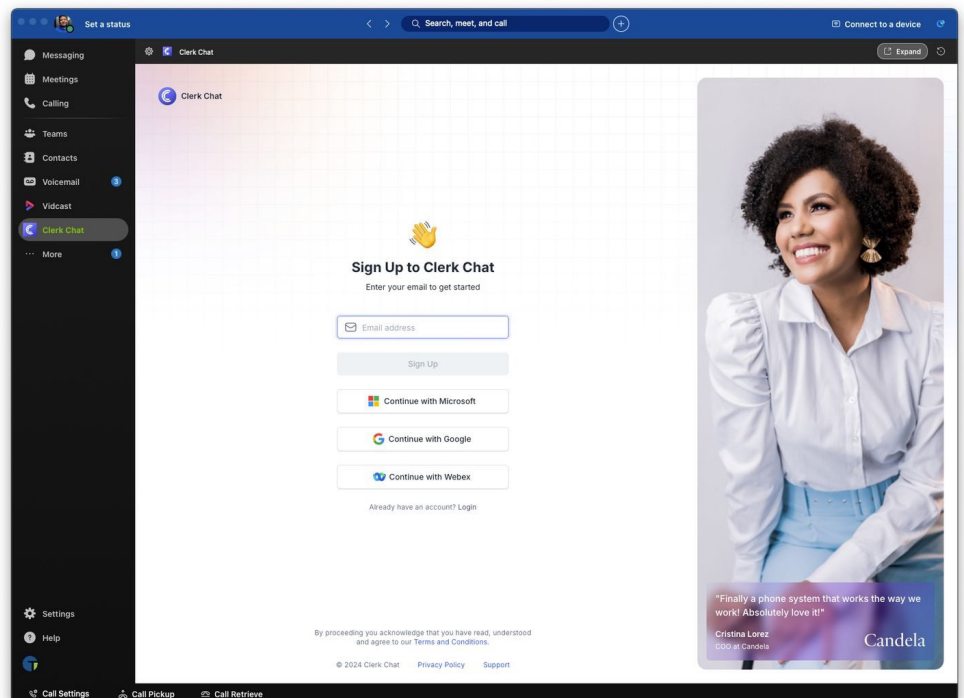

Step 2: From the App Hub, search for the App named Clerk Chat using the search box at the top right corner.

Step 3: Click on the result for Clerk Chat. This will open a pop-up window with a description of the app. Click on the button to Add App (to sidebar).

Step 4: Once the Clerk Chat app is added, you should find it in the Webex desktop client sidebar now. Click on it to bring you to the login page.

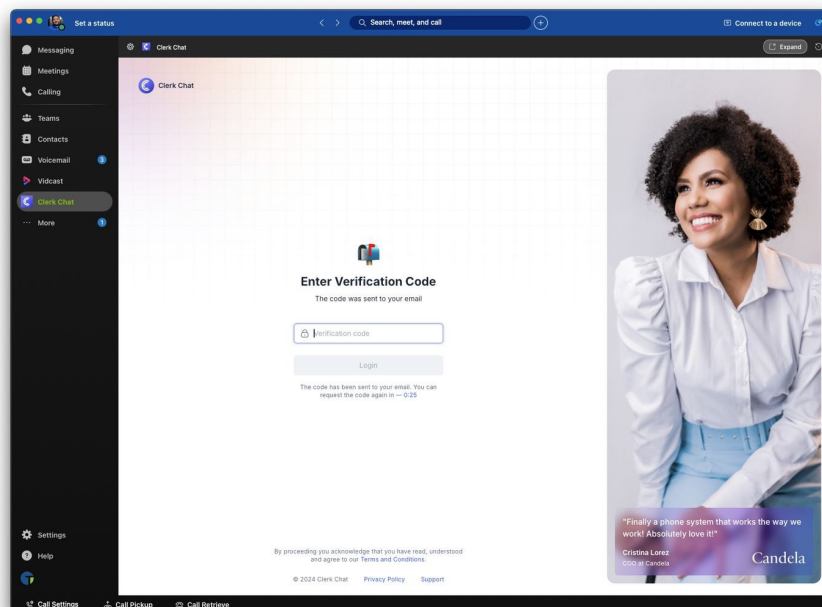

Step 5: Webex users have two options for logging in:

Option 1: Continue with Webex (recommended)– When you select this option, you use your Webex credentials (username and password) to login to the Business Messaging service.

NOTE: Logging in to the service with your Webex credentials will also add a ClerkSMS bot to your Webex Messaging spaces. The ClerkSMS bot sends you alerts/notifications when a new message is received. Do not use the ClerkSMS bot to reply to messages, still use the Clerk Chat app in the Webex sidebar to handle those. If you do not login using the Webex credentials, the ClerkSMS bot will not be added and notifications/alerts will not be sent via Webex.

Option 2: Email address – click on the Login option at the bottom of the menu that is labelled “Already have an account? Login”. You may notice that the prompt at the top of the page will change from “Sign Up to Clerk Chat” to now show “Login to Clerk Chat”. In the text box labeled Email address, enter the email address used to create your account. This should be the same email address used to login to your Webex account. Once you have entered your email address, you will be prompted for a verification code.

NOTE: Ensure you enter the exact email address used during account setup, including the correct domain. Some organizations use multiple domain aliases, but this login process requires the exact one associated with your account.

Check your email for a message from Login <login@stytych.com> with the subject line of Your one-time login code for Clerk Chat.

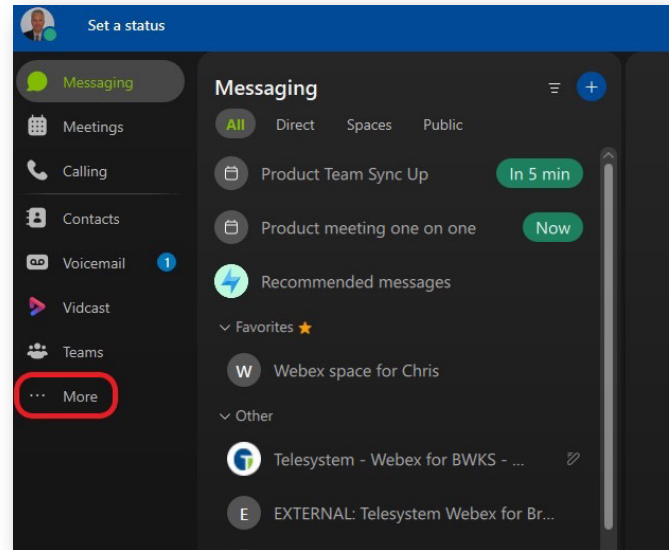

Copy and paste the 6-digit code into the Verification code text box on the app. You only have 1 minute to do this before the code expires. A new code is generated each time. No passwords are used with this method.

Once you have successfully logged into the Clerk Chat app you will have access to the environment to manage messages and options for any of the numbers associated to your user account.

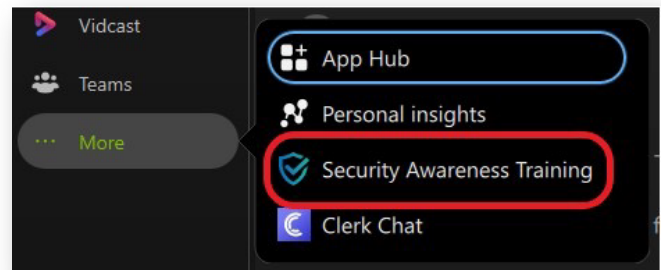

Getting Started with Security Awareness Training

The Security Awareness Training (SAT) portal can be accessed directly through your Webex application. This shortcut will automatically be installed and available on your Webex application when you log in.

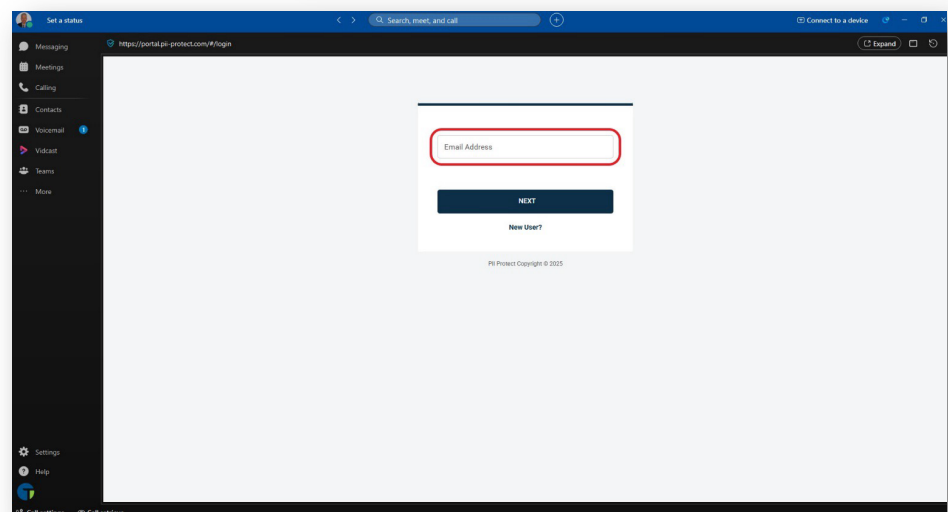

Step 1: Once successfully logged into Webex, navigate to the ...More button on the left menu

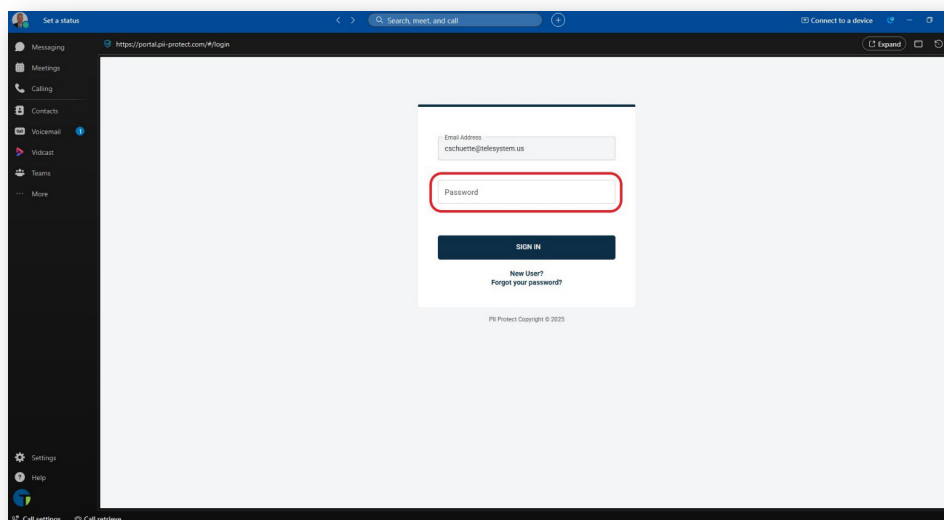

Step 2: Select the Security Awareness Training application off the menu

Step 3: Enter the corporate email address provided to Telesystem during account setup

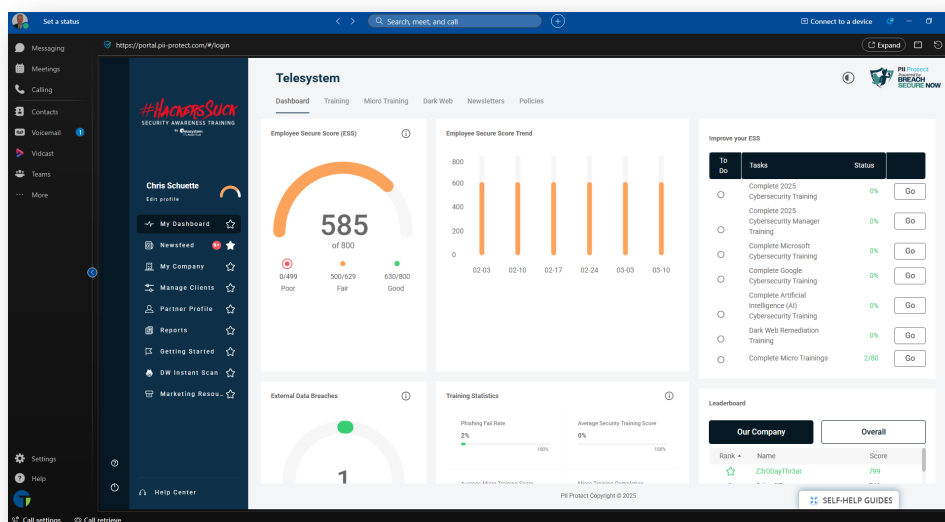

Step 4: Enter the password created when the “Welcome” email was sent at the time of account creation

The screenshot shows the Telesystem login interface. On the left is a sidebar with navigation options: Messaging, Meetings, Calling, Contacts, Voicemail, Vidcast, Teams, and More. The main content area has a search bar and a 'Connect to a device' button. The login form is centered and includes an 'Email Address' field with the value 'cschuette@telesystem.us', a 'Password' field (highlighted with a red rectangle), and a 'SIGN IN' button. Below the button are links for 'New User?' and 'Forgot your password?'. The footer indicates 'PB Protect Copyright © 2025'.

Step 5: Once logged in, the SAT portal will be loaded and all features will be available.

Additional full Security Awareness Training User guides can be accessed on our website here:
